

Yuliang Yan

✉ yyan726@connect.hkust-gz.edu.cn <https://yuliangyan0807.github.io>

Education

The Hong Kong University of Science and Technology (Guangzhou) <i>PhD in Artificial Intelligence, supervised by Enyan Dai</i>	Sept 2024 – Present Guangzhou, China
Fudan University <i>MSc in Computer Science, supervised by Xiaoqing Zheng</i>	Sept 2021 – Jan 2024 Shanghai, China
Shanghai University <i>BS in Mathematics and Applied Mathematics</i>	Sept 2017 – Jul 2021 Shanghai, China

Experience

Research Intern <i>Shanghai Artificial Intelligence Laboratory</i>	<i>Shanghai, China</i> Oct 2023 – Apr 2024
--	---

- Lead the design and evaluation of training algorithms for reaction condition recommendation using LLMs, including dataset construction and cleaning. Our proposed framework can directly generate plausible chemical reaction conditions with high accuracy.
- Contributed to the DPO training of a chemistry-specific LLM for improved alignment with domain preferences, including both dataset construction and training algorithm development. Participated in the publication of research on ChemLLM during the internship.

Services

Reviewer: AAAI (2026), ICLR (2026), NeurIPS (2026)

Technical Skills

Languages: Python, Java, C/C++, Matlab

Frameworks: PyTorch, DeepSpeed, Flask
